National Forest (118:118)

Note: The comments field in this National Forests table contains details about the historic changes in name conventions and exchange of land between National Forests overtime. Therefore, establishment dates for National Forest in PAD-US (CBI Edition) Version 2.1 are recorded here as the first date the lands were designated as land management type "National Forests". This means lands in a National Forest under the original name who retain that establishment date, even if the name changed over time.

Note: The comments field in this National Parks table contains details about the historic changes in name conventions and designation type, typically from National Monument to National Park. The establishment dates for National Parks in PAD-US (CBI Edition) Version 2.1 are recorded here as the first date the lands were designated under a land management type. This means lands that were originally designated "National Monument" and later "National Park" will retain the first designation date as a National Monument.
